

Internet Plans

Installation Charge for all Services/Plans is **K440**

- Includes antennas, up to 50m cabling, etc.
- Excludes customer premises equipment such as router, etc.
- This charge is based on a standard installation and may be higher for any job that falls outside the normal model.
- A site inspection will be done before any installation and the charges will be confirmed or a quote will be supplied.

All prices include GST

Leased Line Plans

All hardware required for the actual Leased-Line connection is provided by Telikom and is rented to you, the end user, on a monthly basis. Once installed you will have a permanent connection to Daltron over the Leased-Line. It is the end users responsibility to request and finance the Lease-Line from Telikom. Daltron can advise you on the implementation of a Leased-Line connection. Contact Daltron for the latest fees.
