Daltron, is pleased to offer ADSL Broadband Services to its Customers.

ADSL is the high speed carriage of data over Telikom phone lines, at speeds much higher than what you can achieve with an ordinary modem.

Daltron has partnered with Telikom to bring this solution to you.

- Telikom infrastructure is used to deliver data from Daltron to you.
- Daltron's ISP facility is used to provide the same services enjoyed by all Daltron ISP Customers.

We have created a great selection of simple and flexible plans. Choose the plan best suited to your needs from the information provided in this brochure.

This service is currently available in Mt Hagen, Lae, Port Moresby, (Boroko, Waigani and 7 mile). All you need to get started is a Telikom phone line connected into your home or business.

Please contact us to have your location checked

You can download the application form at www.daltron.com.pg

ADSL Features

Daltron's ADSL internet service is one of the best methods for accessing the internet from home, and an ideal starting point to connect businesses to the internet.

It provides the following features:

- Email address
- A mailbox for sending and receiving email
- Digital connection ensuring highest quality connection
- 5 Mb of free web space
- FREE telephone support and technical helpdesk support
- Easy set-up and installation aimed at getting you online as effortlessly as possible

Disconnection for non-payment

Automatic disconnection of ADSL service will occur should you ADSL account remain in arrears for a period of 14 days or more.

Cancellation and reconnection

There is a standard K30 fee to reconnect Daltron ADSL if it is disconnected due to non-payment.
